TARIFFS

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the North Carolina Utilities Commission, and are available for public inspection at our business office.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number, and the Company reserves the right to change the call number or the central office designation associated with such number whenever it is deemed desirable in the conduct of its business.

MAINTENANCE AND REPAIR

The Telephone Company is responsible for the maintenance of call switching equipment and the cable and wires between the central call switching office and customers premises.

The Telephone Company is also responsible for the maintenance of telephone apparatus or equipment for which a maintenance contract is in effect.

Note: An optional $1.00 per month per line inside wiring maintenance fee is available for customers. This fee covers the maintenance and repair of inside wiring and jacks that we have installed or approve according to our specifications. If you choose not to pay the maintenance fee, we will make the repairs if you request, however, we will charge you for our time and material. You may choose to have an outside contractor make such repairs.

Telephone equipment not covered by company warranty or maintenance contract is the responsibility of the customer. To determine if the service problem is in your telephone set:

a. If you have only one phone, contact your supplier for instructions.
b. If you have more than one phone, disconnect the non-working set and plug another phone in that outlet. If the second phone works, the first phone is probably defective.
c. Although we do not repair any customer-owned telephones, we will test them for you at no charge at our Service Center on Railroad Avenue, open 9:00 a.m. to 5:00 p.m. Monday through Friday (closed holidays).

If you report a service problem which requires a visit by a service technician to your home or business and the source of the problem is traced to equipment which is not the company's responsibility, there will be a charge for the visit to your premises and we cannot repair the set.

INTERRUPTION OF SERVICE

When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the subscriber or the failure of the facilities provided by the subscriber, a pro rata adjustment of the fixed monthly charges involved will be allowed, upon request of the subscriber, for the service and facilities rendered useless and inoperative by reason of the interruption during the time said interruption continues in excess of twenty-four hours from the time it is reported to or detected by the Company, except as otherwise specified in this tariff. For the purpose of administering this regulation, every month is considered to have thirty days.

RESPONSIBILITIES FOR MESSAGES

Subscribers are responsible for all charges for messages originating from or reversed to their telephones.

TELEPHONE DIRECTORIES

Loss of time and inconvenience by calling wrong numbers can be avoided by consulting the current directory before placing a call.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling Directory Assistance 1 + 411.

Every effort is made to have listings absolutely correct. However, this Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

TELEGRAMS BY TELEPHONE

Telegrams may be transmitted to and received from the telegraph office by telephone. To send a telegram or cablegram, call Western Union Telegraph Company, 884-2152. By arrangements with the Telegraph Company, any telephone subscriber may have charges for messages received or sent by telegraph charged to his telephone and collected with his telephone bill.

USE OF RESIDENCE TELEPHONES FOR BUSINESS PURPOSES

Residence Telephones are installed with the understanding that they will be used for normal social or domestic purposes.

Instructions for Custom Calling Services

Cp 971.88
B84c
1988

Call Waiting

Lets you know someone else is calling when you're using the telephone. You hear a beep tone. If you ignore the first beep, there will be a second one in ten seconds. The party calling you hears only the normal ringing.

How to use it:

1. If you hear a beep and want to end the first call, hang up. Your telephone will immediately ring with the second call.

2. To answer the second call, press and release the receiver button quickly. The first call will be put on "hold" and you will be connected to the second call.

3. To return to the first call, press and release the receiver button again. You can switch back and forth between the two calls as often as you want.

Call Forwarding

Lets you transfer your incoming calls to any telephone you can dial-direct without Operator assistance.

How to use it:

1. To forward calls dial 72, then the # symbol; listen for dial tone.

2. Dial the number that will be accepting your calls. Call Forwarding is in effect when the party answers. At that time, you can tell them they will be receiving your calls.

3. If the line is busy, or there is no answer, hang up and repeat the first two steps. No answer is required to establish Call Forwarding on the second attempt.

4. Call Forwarding can only be cancelled from your telephone. To cancel Call Forwarding dial 73, then the # symbol. You will hear two beeps, then dial tone.

Notes:

While your calls are being forwarded, your telephone will ring briefly each time your number is dialed. You cannot answer the calls, but the ring is a reminder that Call Forwarding is still in effect.

If you forward your calls outside of your local calling area, you will be charged for any calls forwarded from your number to the distant number. For example, if you forward your calls to a number in California, the person calling you is charged for a call only to your number, but you are charged the rate from your number to the number in California.

While calls are being forwarded, you can still make outgoing calls.

Three-Way Calling

This service lets you add a third party to your existing conversation without Operator assistance.

Three-Way Calling can be used whether you have received or have placed the first call.

How to use it:

1. Press and release the receiver button to put your call on "hold." You will hear a special dial tone.

2. Dial the third person's number. You can talk before including the original caller.

3. To begin the three-way call, press and release the receiver button. All three parties will be on the line. (If the line is busy or there's no answer, you can return to the original call by pressing and releasing the receiver button.)

Notes:

If the original party hangs up, you can add another third party by repeating steps 1, 2 & 3.

To disconnect the third party, press the receiver button for about a second. Your line is then free to add a different third party by repeating steps 1, 2 & 3.

All parties are disconnected when you hang up.

Speed Calling

This service lets you call frequently called numbers by dialing only one or two digits. Speed Calling is available in either 8 or 30 number capacities. These numbers can be either local or long distance.

To enter or change a Speed Calling list of 8 or 30 numbers:

1. Select a one-digit code (numbers 2 through 9) for Speed Calling-8. Select a two-digit code (numbers 20 through 49) for Speed Calling-30.

2. Dial 74 for Speed Calling-8. Dial 75 for Speed Calling-30. Depress the # button. Listen for dial tone.

3. Dial the code you have selected and the complete telephone number it will represent. Be sure to dial the number as you would normally place the call including the Area Code if it's different from your own. Depress the # button. Listen for confirmation tone to indicate your Speed Calling number is established.

4. To call numbers selected for Speed Calling, simply dial the one- or two-digit code you have selected, then press the "#" button.

Note:

You will need to keep a current list of your Speed Calling numbers.

Tone-Dial

Make your telephone system more pleasant with Tone-Dial. Enjoy push button convenience in your home or office. It's a faster, more accurate way to place your calls.

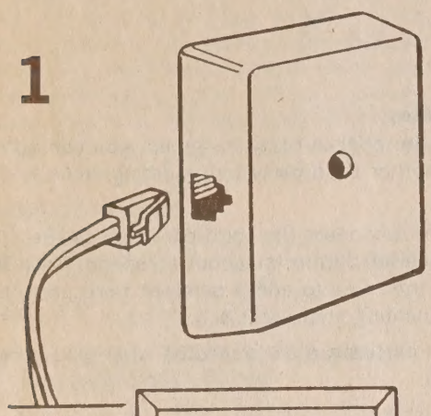
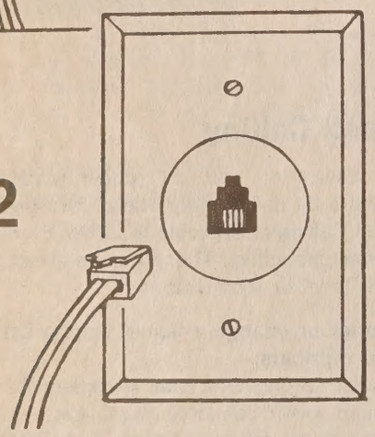
how to connect or disconnect your phone

1



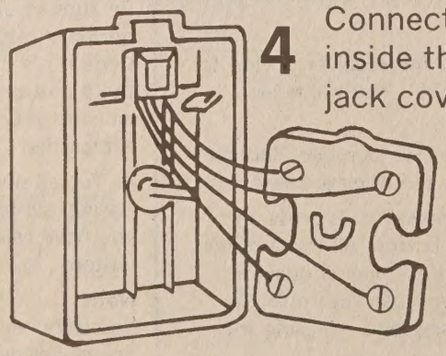
2



The illustrations to the left should be helpful to you when installing or disconnecting your telephones. Illustrations 1 and 2 show wall receptacles (standard jacks) which can accommodate modular telephone cords. To install your phone, match the plug at the end of the telephone with the receptacle and insert. To disconnect the phone, squeeze the clip on the plug and pull it out of the receptacle.

Illustrations 3 through 5 show receptacles (non-standard jacks) which can easily be converted to modular jacks with the use of a conversion kit. Kits may be purchased from Citizens Telephone Company.

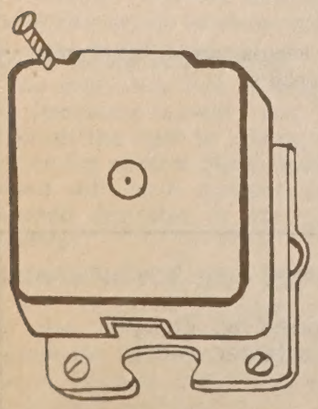
4



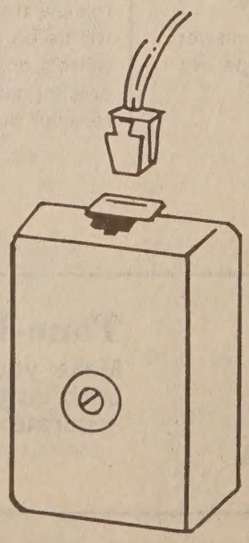
Connect the wires inside the modular jack cover.

Remove cover.

3



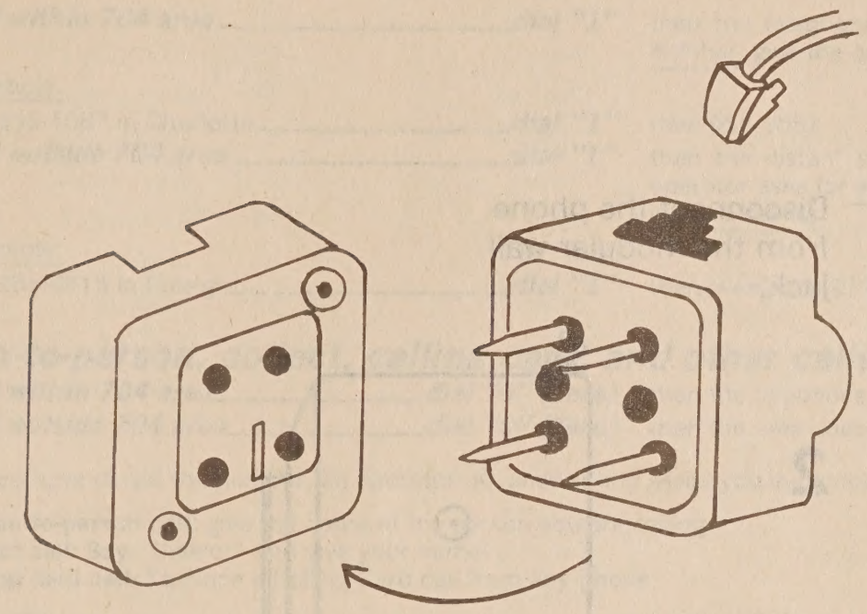
5



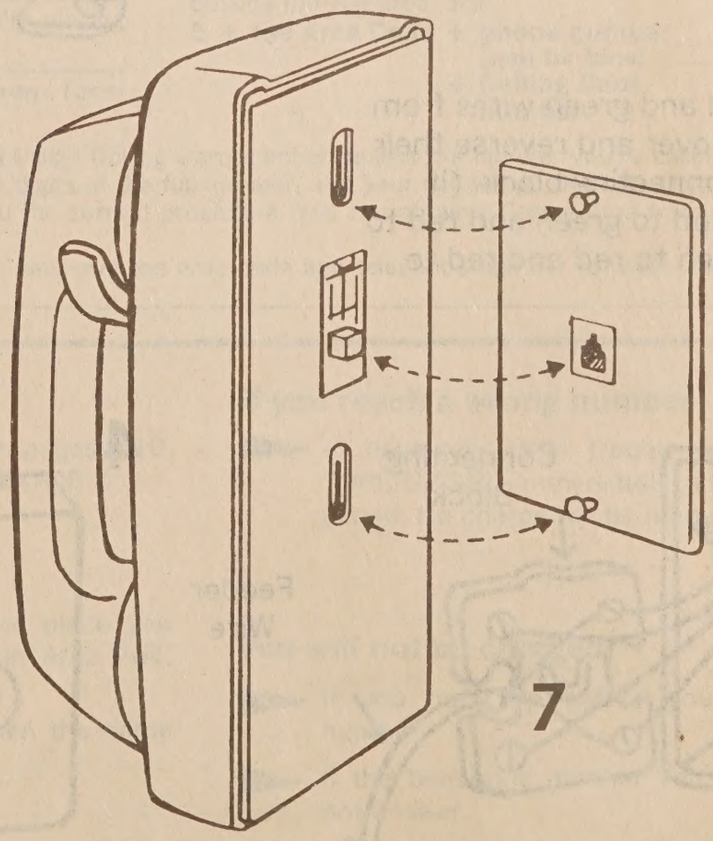
Position the modular jack cover over the connecting block and plug in telephone.

Illustration 6 shows a receptacle (non standard jack) which can accommodate modular cords through the use of an adapter. The adapter simply plugs into the receptacle. With the adapter in place, insert the plug as described on the previous page.

6



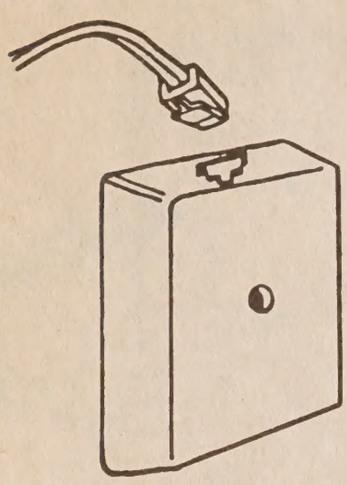
A receptacle for a wall-mounted phone is shown in illustration 7. To connect your wall phone, match the holes in the back of the telephone with the rivets on the wall mounting, push the phone lightly against the mounting while sliding it down into place over the rivets. To disconnect, slide the telephone up to lift it off the rivets, then pull the phone away from the receptacle.



7

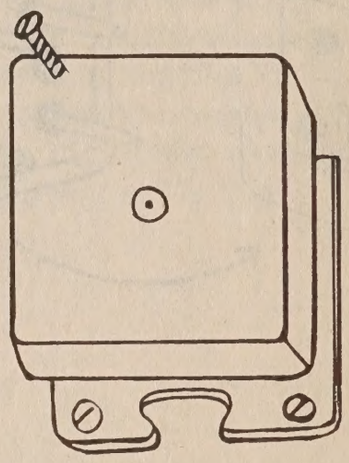
IF YOU PLUG IN A NEW TONE DIAL TELEPHONE AND CANNOT CALL OUT . . .

1



Disconnect the phone from the modular wall jack.

2



Remove the modular wall jack cover.

Disconnect the red and green wires from the modular jack cover and reverse their locations on the connecting block. (If green was connected to green and red to red, reconnect green to red and red to green.)

area codes speed your long distance calls

The U. S. and Canada are divided into more than 120 telephone areas. Each area has a 3 figure area code. Your area code is 704 (see map). The area code of the telephone you are calling should be dialed or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same. (When placing call with operator, say, for example, "I want area code 311-555-2368.") When you give someone your telephone number, include your area code if he needs it to return your call. A list of selected area codes is on pages 10 & 11. Area codes for other places may be obtained from the OPERATOR.
